## CAPABILITIES STATEMENT

### COMPANY OVERVIEW

We are a small-business specializing in cybersecurity for network and computer systems. We efficiently implement the highest standards of information security for Federal and Commercial clients.

### CAPABILITIES

#### **Network Design, Documentation, and Consultation**

We can provide documentation as well as systems and processes to simplify administration of the IT network. Through these methods we can deliver valuable information such as qualitative and quantitative metrics useful for management.

#### **Network Management and Support**

We can maintain all aspects of an enterprise network, ensuring that mission-critical resources are always available when needed.

#### **IT Training**

We can provide on-site IT training or certification training relevant to the technologies used by current IT staff to improve competence, staff performance, and customer satisfaction.

#### **IT Hardware Value-Added Reseller**

We are partnered with leading IT Hardware wholesale distributors to deliver purchase orders for IT hardware, with or without value-added support.

### CLIENTS / PREVIOUS EXPERIENCE

Our staff has completed crucial Professional Services for many Fortune 100 clients. The scope of work included management of SOWs, scheduling, negotiation, and execution of services.
